Meeting Location

The meeting will be held in Ann Arbor at the University of Michigan Central Campus in Room 845 of the Dennison Building. David Dennison was one of the first physicists to grapple with internal rotation in methanol so this is apt for HEXOS. The Astronomy Dept occupies floors 7-10 in this building. A map of central campus is attached below.

Parking

The closest public parking structure (rates are \$0.90 per hour) is the Forest St. structure. It is a short walk (past some caffeine delivering establishments) to the Dennison building. The entrance is on Forest St. See attached map.
